

Product Brief

ZM-6000 Series

NexAIoT Data Acquisition System

ZM-6000/6017/6050/6051/6056 /60WF/60OD

Key Features

- Remote Management
- Remote Application
- Application Domain
- Industrial Protocols Are Required
- Real-Time Data And Status Are Required
- Remote Monitoring And Control Based On HTML5
- Rich Protocols And Communications Support
- Daisy-Chain Networking And RS-485
- Data Storage And Cloud Storage
- Data To Cloud And Situation Room
- Users Can Develop Their Own Functions
- Customized OLED Menu
- Broadcast Update

Overview

ZM-6000 Series Are A Data Acquisition System That Can Be Applied In Green Energy, Energy Management, Remote Control, HVAC & AUQA, FA, Etc. , And Industrial Communication Requires Data Exchange. When You Are Far Away From The Device, You Can Monitor The Status Of The Device In Real Time, Collect Data, Connect Data, Etc. Support Data Storage And Cloud Storage, Simple Settings Can Easily Connect To The Cloud.

Note

- ZM-6017 (Analog Input, 8-Ch, 24-Bit)
- ZM-6050 (Digital Input, 8-Ch, 0~±3V, Digital Output, 8-Ch, 500mA)
- ZM-6051 (Digital Input, 8-Ch, 0~±3V)
- ZM-6056 (Digital Output 8-Ch, 500mA)
- ZM-60WF (Support Wi-Fi Module)
- ZM-60OD (Support OLED Display)
